APPROVED NV2000 EMISSION TESTING EQUIPMENT
GASOLINE VEHICLES

Manufacturer Name	Contact Information	Approved Models	Approved Software Version
Worldwide Environmental Products	1100 W. Beacon St. Brea, CA 92821 United States Ph: 800-832-SMOG Fax: (714) 990-3100	5000 Series containing Nevada hardware 6000 Series containing Nevada hardware	0318 – SR04 (updates are ongoing, check with your local DMV emission lab for current information)

ADDITIONAL INFORMATION:

- The serial number affixed to the Worldwide emission analyzer identifies it as being built specifically for use in the State of Nevada. Other 5000 series Worldwide analyzers built for use in other states are not guaranteed to contain the same hardware components required for Nevada.
- Data link cables must meet the analyzer's Controller Area Network system compatibility requirements
- NV2000 emission analyzers must be connected to the Vehicle Information Database (VID) operated by the Department of Motor Vehicles. High speed internet connectivity is required.
